PROFILE

Design-minded, code-driven Frontend Developer in Dubai. Builds responsive interfaces with Next.js, React and TypeScript, styled with Tailwind CSS and brought to life with Motion and Three.js. Designs mobile-first, builds accessibility in from the start, and uses animation only when it guides the eye. Delivered a live website for a Dubai beauty salon, founded and builds MentorLann, and brings over two years of e-commerce experience at Spinneys and Kinokuniya.

PROFESSIONAL EXPERIENCE

Founder & Frontend Developer | MentorLann
Learning & community platform for Myanmar | 2026 – Present | mentor-lann-app.vercel.app

- Founded and run a Next.js/React platform with career pathways, a 12-course catalog, articles, reusable UI components, animations and lazy-loaded 3D elements.
